# Don't just listen but take notice!

## Don't just listen, but take notice! Tips to make your storytelling a success

This online seminar deals with the issue of getting your audience to understand you better.

There are two questions to address as a starting point:

Do you know your target group?

Does the person you're talking to understand your message, what it is that you're saying?

Using examples of actual conversations, we work out how you can tell your story more effectively. The workshop focuses on **taking notice, not simply listening**.

In the seminar, you are asked to complete a task as a starting point for discussion. You'll also be given additional pointers on how to deliver your message correctly and sympathetically.

Invest **around eight hours** in yourself and map out the pathway to successful storytelling.

### Fee:

#### Don't just listen, but take notice! Tips to make your storytelling a success

890 euros incl. VAT per person

### Here's another tip for you:

Combine this seminar "Don't just listen, but take notice!" (part 1) with the follow-on session (part 2):

#### "Tips on enabling others to understand you better - phrases and questions to take the heat out of highly charged exchanges"

1,710 euros (you save 70 euros) incl. VAT per person - instead of 890 euros for each seminar

The fee includes your participation in the workshop and the seminar documents.
